#### 1.0 INTRODUCTION

This Budget Implementation Report is prepared in conformity with Article 228(6) of the Constitution of Kenya, 2010 and Section 39(8) of the Public Finance Management Act, 2012's requirement that counties report on the implementation progress of their budgets. The report presents revenue and expenditure performance by the County covering the period July 2017 to June 2018.

Revenue is disaggregated by source while expenditure is analyzed by economic classification. It also highlights the County government's activities for the period under review and seeks to objectively review budget implementation in the county by highlighting performance of revenues, transfers received from the National Government and actual expenditure. Key issues that affect budget implementation during the financial year are identified and appropriate recommendations made on how the issues can be addressed to enhance efficiency and effectiveness in budget execution.

#### 3.0 IMPLEMENTATION CHALLENGES

The county experienced several challenges/issues that affected budget implementation during the financial year 2017/2018.

#### These are:

- **Delay in release of funds**: Due to a long process of requisition of funds project implementation has been delayed due to the untimely release of project funds.
- **Transition:** The County Government had to realign the planning framework in order to mainstream the 5-pillar development manifesto into the CIDP 2018-2022, the National Government's big 4 and other cross-cutting issues, which partially contributed to the delay in project implementation.
- Clearance of pending bills: This has affected project implementation since the bulk of pending projects had critical issues leading to a review of the same.

# 4.0 RECOMMENDATIONS

The following recommendations will smoothen implementations in the next phase;

- The County Government will have to liaise with the National Government for timely release of sufficient funds to foster smooth operations and project implementation.
- Quick project review needs to be undertaken to ensure that the ongoing and the new projects are in tandem with the new manifesto to quicken funding of the same.
- Procurement Planning: There is need for spending entities to initiate procurement of goods, services and works early enough to ensure projects especially infrastructural projects are completed within stipulated time.
