COUNTY EXECUTIVE

Part A: Vision.

A leading department in public policy formulation, coordination, supervision, resource management in the county

Part B: Mission.

To provide overall leadership and policy direction in resource mobilization management and accountability for quality service delivery.

Part C: Performance Overview & Background for Programme(s) funding

The executive services comprises of the office of the governor and deputy governor and county executive committee. The executive authority of the county is vested in and exercised by the county executive.

Major achievements for the period include; Construction and completion of the Governor's Office which is now complete, purchase of more office furniture improving working environment for the staff and the clients seeking services from this office and purchase of 3 hard top land cruisers for efficient delivery of services by the directorates in the office of the Governor.

Further improvement of ICT services, initiating Performance Contracting System for the County staff with major objective of ensuring achievement of the vision of the County was developed. Employment of more personnel in Human Resources and Communication units to enhance service delivery of the directorates and successful implementation of the Moyale peace restoration programme in collaboration with other stakeholders such as National Government and United Nations team and Provision of emergency relief food to various parts of the County affected by the prolonged drought. Economic advisory and successful bench-marking visits to various countries which has attracted investors and donors from energy and livestock sector.

Part D: Strategic Objective of the Programmes

PROGRAMMES	OBJECTIVE
P1: Management of county affairs	To ensure good management for maximum and appropriate utilization of both human and material resources in the county.
P2: County advisory services	To provide appropriate direction for the county leadership, focusing on development.
P3: County Information and Communication Services	To collect, collate and disseminate credible information to promote knowledge based society
P4: Inter - Governmental Relations	To efficiently coordinate the inter-governmental functions.
P5: Legal Services	To promote rule of law, good governance and provision of quality legal services.

County Treasury

Part A: Vision

To be a department of excellence in economic and financial management

Part B: Mission

To pursue prudent economic and fiscal policies and effectively coordinate county financial operations for rapid and sustainable development

Part C: Performance Overview and Background for Programme(s) Funding

Finance and Economic Planning in the County is responsible for Accounting; Revenues; Audit; Procurement; ICT; Budgeting and Planning. One of the key objectives is to ensure that services are provided in an efficient and effective manner to all the departments and residents of the county and to ensure that resources are well allocated and utilized.

The County Treasury is critical in creating and facilitating sustainable development to allow the coordination of County financial affairs. The Treasury is responsible for the distribution of funds to various sectors and programmes. The Treasury ensures compliance of various conditions set to allow the access of funds from the National Treasury. The mobilization of revenue from local sources is a key responsibility of the department. The department ensures that the funds are distributed in order of priority.

During the financial year 2014/2015, the County Treasury was allocated a recurrent budget estimate of Kshs. 649,917,729.40. This amount includes Ksh. 194,983,565 pending recurrent bills carried forward from financial year 2013/2014, Ksh. 65M allocated to CEC members for car loans and mortgage and Ksh. 200M for civil contingency and famine relief. The amount also included Ksh. 20M allocated to scholarship and other education benefits, Ksh. 40M emergency fund and Ksh. 33M allocated to motor vehicle insurance for all the County motor vehicles.

The County Treasury was further allocated Ksh. 1,196,213,997 development expenditure. This amount included Ksh. 1,072,213,997 being pending development bills brought forward from FY 2013/14, Ksh. 100M as pro – poor and other institutional support programme and Ksh. 7M for monitoring and evaluation. A further Ksh. 10M was allocated to investment promotion programme and Ksh. 4M to establish revenue collection centres. The department further allocated Ksh. 3M for the development of county assets management register.

During the FY 2015/2016, the allocation towards the county treasury was Ksh. 986,268,307. This amount is inclusive of Ksh. 426,268,307 (Recurrent), Ksh. 500M as pending bills and 60M for other development projects including Pro-poor and other institutional support programmes.

During the financial year under review, the county treasury managed to make full utilization of the IFMIS and Internet Banking systems in making all its payments with minimal network challenges.

The County Treasury also faced a number of challenges in discharging its mandate. Lack of adequate number of PFM staff at the treasury greatly hampered the turnaround time in processing of payments. This is a challenge that the treasury would firmly address during the financial year 2017/18.

During the financial year 2017/18, the department intends to do a capacity building for all the CEC members, chief officers and all the technical staff of the county departments on programme based budget linked to outputs and outcomes with performance measurement system.

The County Treasury shall also provide guidelines to ensure that government procurement opportunities for women, youth and persons with disability are adhered to and further do capacity building on the new procurement law.

For the successful implementation of Budget 2017 /18 and for future Budgets, the County Treasury shall at all times conduct public participation exercise in the budget process and ensure that at the very minimum, all the budget documents as required by the PFM law, are published and publicized in a timely fashion.

Budget implementation especially for the development expenditure is a recurring problem and there seems to be no significant traction by departments in resolving the causes of low absorption rates. Low absorption was also attributed to delay in the release of national shareable revenue to the County. With the improvement of exchequer releases expected in future, adequate focus on institutional capacity and systems at the County shall be put in place to improve budget implementation to the level that is consistent with desired outputs and goals.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To facilitate the delivery of services to empowered, informed customers by an efficient, effective and service-oriented County Treasury staff.
P2: Public Financial Management	To develop, sustain and safeguard a transparent and accountable system for the management of public finances.
P3: Economic and Financial Policy Formulation and Management	To oversee a stable macroeconomic environment for the stimulation of rapid economic growth.

Part E: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (KShs.)

Agriculture, Livestock and Fisheries

Part A. Vision

To be the leading agent in food security for all, employment creation, income generation and poverty reduction in Marsabit county

Part B. Mission

To improve livelihoods of Marsabit county community by promotion of competitive farming business through appropriate policy environment, effective support services and sustainable natural resources management

Part C. Performance Overview and Background for Programme(s) Funding

DEVELOPMENT ACTIVITIES: 2013 – 2017:

- Support to Fodder Production – Procurement of 2000kgs of various species of pasture seeds.
- Construction of 4 fodder stores – Maikona and Hurri Hills.
- Support monitoring, Control and Surveillance – Lake Turkana – Through Purchase of 4 Motor Boat.
- Support fish harvesting – Procurement and distribution of KES.13 M worth of fishing gears.
- Support construction of Fish Cold storage facilities – Illeret and Loiyangalani.
- Support to honey production – through procurement of bee harvesting kits.
- Procurement of various types of Agricultural seeds - 19MT.
- Purchase and distribution of Agricultural chemicals and weed control equipment to control pest outbreaks.
- Desilting of 10 earth pan to support micro-irrigation.
- Support Greenhouse technology – Purchase and Installation of 24 green house
- Support installation of Biogas technology at Marsabit and Moyale slaughter houses.
- Promote veterinary public health – Renovations of Marsabit, Moyale, Laisamis Slaughter houses.
- Construction of Mini slaughter house at Gas, North Horr sub-county.
- Support construction of Livestock marketing at various locations in the county.
- Purchase of 28 motor bikes to support extension services to farmers.
- Procurement of 11 tractors and tractor accessories – to support Agricultural Mechanisation services.
- Purchase of 3 vehicles to support activities of department.
- Installation of 5 solar fridges – support cold chain for vaccinations.
- Establish one seed bulking centre.
- Support expansion of 1 Kurungu irrigation scheme at. South Horr

- Support disease Control initiatives – Procurement of vaccines and diagnostic services.
- Purchase 1 mobile veterinary clinic vehicles.
- Renovation of Diagnostic laboratory at Shurr.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To provide efficient and effective support services for departmental programmes.
P2: Crop Development and Management	To increase agricultural productivity and outputs.
P3: Livestock Resources Management and Development	To promote, regulate and facilitate livestock production for socio – economic development and industrialization.
P4: Fisheries Development and Management	To maximize contribution of fisheries to poverty reduction, food security and creation of wealth.

Part E: Summary of Expenditure by Programmes, 2017 /2018 – 2019/20(KShs.)

Part G: Summary of the Programme Outputs and Performance Indicators for FY 2016/17- 2017/18

Delivery Unit	Key Outputs (KO)	Key Performance Indicators (KPIs)	Target 2017/18	Target 2018/19
Headquarters	Release of funds to programmes	No. of days taken for funds to be released to programmes	10	5
	Developed Strategic Plan	Departmental Strategic Plan review	1	1
	Improved service delivery	Service delivery Charter	4	4
	M & E Reports	No. of M & E reports	4	4
	Sector Report	No. of sector reports	4	4
	Staff skills and competences developed	No. of training conducted	Quarterly	Quarterly
	Procurement of supplies	No. of weeks taken to procure supplies and services to user programmes and services		
Directorate of Agriculture	Development and Management of Agricultural policies	No. of policies, bills and legal notices developed.	1	2
	Increased acreage under cultivation	No. of acres under cultivation	200	300
	Assorted seed bulked and distributed to identified household	No. of households	250	200
		Assorted seeds	2.5 MT	2MT

Small farms friendly technologies developed	No. of technologies developed	4	6
Farmer capacity building	No. of farmers trained	300	400
Technology sharing forums attended	No of technology transfer workshops/seminars attended.	4	8
Approaches and methodologies mainstreamed in extension service	No of extension delivery innovations <i>workshops and seminars held</i>	2	4
	No of service providers adopting the new innovations	2	3
	No of farmers benefiting from the innovative approach	40	160
Farmer extension services (Farm/outlets visits, demos, field days, tours etc)	No of farmers reached	4000	6000
Support to ATC and other training centres	Annual allocation to ATC approved	1	1
	No of stakeholders using the training centres	25	60
	No of training curriculum developed		
	No of new staff deployed to ATC and other centres	2	4
	No of technology transfer demonstration held	1	2
	Amount of A-I-A generated	6	8
		1,500,000	2,000,000

	farmer training(residential and non-residential, Seminars/workshops)	No of farmers trained Training report Attendance list Training programmes	25	40
	staff training(local, foreign, residential ,non-residential)	No of staff trained. Training report Attendance list Training programmes	8	12
Directorate of Agriculture	Field pest surveillance undertaken	No. of surveillances undertaken	3	4
	Groups supported in community driven food security improvement initiative	No. of groups supported.	25	30
	Food security assessment	No of food security surveys conducted No of reports compiled	2 2	2 2
Directorate of Livestock Production	Livestock administrative policies and strategies developed	No. of policies and strategies developed	3	4
	Technical staff trained	No. of staff trained	20	30
	Pastoral farmers trained	No. of farmers trained	300	400
	Extension reference materials developed	No. of Extension reference materials developed	3	4
	Disease situation report	No. of Disease situation report	2	3
	Standards on hides, skins, leather and leather products	No. of Standards on hides, skins, leather and leather products	1	1
	Pest control	% reduction in pest control	20%	25%

	Trainees in animal husbandry	No. of people trained on animal husbandry	150	200
	Livestock early warning system	No. of early warning systems established	3	4
Directorate of Livestock Production	Livestock extension policy	No. of policies developed	1	2
	Stakeholder capacity building	No. of stakeholders trained	150	200
	Construction of Hay store	Number of hay store constructed	2	2
	Marketing of hay/fodder	Number of market linkage established	3	5
	Purchase of breeding stock – Young male stock	Number of households benefitting & Number of male stock purchased	500HH 500 Young Male	500HH 500 Bucks
	Emergency destocking (Off take)	Number of animals destocked	7,500	10,000
	Provision of hay relief	Number and types of hay bales and other nutritive feeds procured. Number of livestock and households benefitting	5,000 bales, molasses 10,000 livestock benefitting	5,000 bales, molasses 10,000 livestock benefitting
Directorate of Livestock	Livestock policies and strategies developed	No. of Livestock policies and strategies developed	3	4
	Holding ground for livestock established	No. of holding ground established	1	1

production	Water harvesting infrastructures for pastoral communities constructed	No. Water harvesting infrastructures for pastoral communities constructed	20	30
	Standards on hides, skins, leather and leather products	No. of Standards on hides, skins, leather and leather products	1	1
Directorate of Livestock production	Pest control	% reduction in pest control	20%	25%
	Farmers benefiting from pest control vaccines	No. of farmers	1000	1000
Directorate of fisheries development	Fisheries policies and strategies developed	No. Fisheries policies and strategies developed	2	3
	Development and Review of fisheries Manual	Number of existing manuals reviewed/developed	2	2
		Number of new manuals developed	2	2
	Trainings of B.M.U.s, Fisher-folks and Formation of resource users groups	Number of Fisher-folks trained	200	250
		Number of B.M.U.s trained	10	10
		Number of B.M.U.s formed	2	2
	Staff trainings	Number of staff trained	4	5
	Exposure tours	Number of exposure tours conducted	2	2
	Stake holders forums	Number of forums conducted	1	1
	Fisheries policies/regulations review and domestication	Number of existing policies/regulations reviewed and domesticated	2	2
	Establishment of new county fisheries regulations/guidelines where appropriate	Number of new county fisheries regulations/guidelines	2	2

	Initiation, Strengthening, Signing and implementation of joint Lake Turkana Fisheries Resource Management Plan / agreement (Marsabit/Turkana/Samburu Counties; National government and immediate related stakeholders	Number of Lake Turkana Fisheries Resource Management Plan / Agreements initiated and in place	1	1	
		% of management plan Implemented	30%	40%	
		Number of projects initiated / stake holders and collaborators or sponsors brought on board	2	2	
		Number of annual Management steering groups/members held	1	1	
		Number of quarterly Reports Submitted on Management Plan progress status	4	4	
Directorate of fisheries development	Establishment and operationalization of Fish cold storage facilities and ice production centres	Number of cold storage facilities and ice production centres established	2	2	
		Number of fish handling and processing facilities (shades) constructed at the fish landing beaches	2	2	
		Number of deep freezers/cooler boxes procured for fish storage and handling at landing beaches	2	2	
	Up-scaling use of solar driers technology	Number of solar driers established	3	3	
		Support private sector to establish Fish eateries or Kiosks or facilitate enabling environment during transportation in Major market sector.	Number of fish eateries/kiosks established	3	4
			Number of active fish transporters supported	3	4
			Number of fish transportation vessels procured	3	3
	Conduct Eat More Fish Campaign	Number of eat more fish campaigns conducted	4	4	
	Advertisement and publicity of lake Turkana Fish market information (Songs	Number of advertisement and publicity done	4	4	

	and dance)			
	Formation and strengthening of BMUs and Co-operative and linkage to financial Institutions for credit facilities.	Number of B.M.U.s formed and strengthened	10	10
		Number of financial facilities and institutions linked and accessible to the fisher-folks	2	2
	Fish value addition & Mini processing plant establishment	Number of mini processing plants established	1	4
		Number of fish value addition promoted, supported and adopted among the fisher-folks	1	1
	Support Routine lake Patrols & M.C.S.	Number of Monitoring, Control & Surveillance (M.C.S) / routine patrols done	3	3
	Prosecution of offenders	Number of offenders prosecuted	10	10
	Removal and destruction of illegal Fishing gears	Number of illegal fishing gears confiscated and destroyed	200	200
	Sea safety and Disaster preparedness trainings to fisher-folks	Number of Sea safety trainings done	3	3
		Number of people trained on Sea Safety and Disaster preparedness / Response	30	30
	Provision of sea safety and rescue equipment	Number of safety and rescue equipment procured and distributed	150	150
	Emergency rescue response	% increase in Emergency Preparedness and Rescue Response	20%	30%

County Public Service Board

Part A. Vision

A leading county department in coordination, supervision and prudent human resource management

Part B. Mission

To formulate and implement policies, programmes and activities that form the best human resource practices towards a lean, productive and highly motivated Public Service

Part C. Performance Overview and Background for Programme(s) Funding

The County Public Service Board is responsible for ensuring uniformity of norms and standards for establishing and abolishing offices in the County Public Service; appointing persons to hold or act in those offices and confirming appointments. The Board is also responsible for exercising disciplinary control over and removing persons holding or acting in those offices. In addition, it oversees the implementation of policies on human resource management and development; and promotion of labour relations in the County Public Service.

The department's core functions include among other things provision of effective leadership in human resource policy formulation and implementation, development of a coherent, integrated human resource planning and budgeting for personnel emoluments in the county, monitoring and evaluating the organization and administration of county personnel and above all ensure that the County public service is efficient and effective. In the year 2013/2014, the department was allocated Kshs 88.7 million. Some of the major achievements for the period include: recruitment of county civil servants for different departments, conducting interviews and deployment of chief officers and county secretary among others. The department is currently developing a county human resource policy. Some of the challenges include lack of office space and inadequate budgetary resources. In the year 2014/2015, the department was allocated Kshs. 60M recurrent and Kshs. 7M development expenditure estimates. The department carried out a number of activities including skills enhancement programmes and completion and launching of county human resource policy. The department also constructed a registry block and acquired registry equipment. During the same period the board also signed performance contracts with the county government.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To improve service delivery and provide supportive function.
P2: Human Resource Management and Development	To transform public service to be professional, efficient and effective in the delivery of services.

Part E: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (KShs.)

Education, Skills Development, Youth and Sports

Part A. Vision

To provide competitive and transformative quality education in the county, be a leader in nurturing and empowering youths and sports.

Part B. Mission

To provide, promote and coordinate quality education and training to maximize full potential of the youths and sports persons through participatory engagement that serves their needs and aspirations in building Marsabit County.

Part C. Performance Overview and Background for Programme(s) Funding

The Department consists of four sections namely; Education, Skills development (youth polytechnics), Youth and Sports. In the FY 2014/15 the Department was funded to a tune of Kshs: 228,277,261.90 (**two hundred twenty eight million two hundred seventy seven thousand five hundred and sixty one and ninety cents**) which Kshs. 72,477,561.90 were recurrent expenditure and Kshs. 155,800,000.00 development expenditure.

The Department has been able to fence Merille and Umuro Youth Polytechnics while construction of masonry workshop at Obbu YP, twin workshop, administration block, 2no.classroom and a double door pit latrine at Saku YP, and a double door pit latrine at Moyale YP are ongoing. The department is also constructing 30 ECDE classrooms all over the County and providing furniture's and learning materials to 90 ECDE centres. We are also in the process of upgrading Marsabit stadium by constructing a perimeter wall and doing internal works.

The department has successfully implemented several programmes. These include;

- I. ECDE teachers in-service course
- II. Standard assessment for schools and polytechnics
- III. Ballgames tournament
- IV. Capacity building for YP principals and boards of governors
- V. Interviews for YP instructors and sub county youth & sports officers
- VI. Recruited and deployed 120 ECDE caregivers
- VII. Recruited and deployed sub county ECDE officers
- VIII. Youth talent search
- IX. Trained 40 youth mobilizers

In the FY 2017/18 the Department intends to continue with infrastructural development and modernizing the procedures and processes in all the institutions.

CHALLENGES AND CONSTRAINTS

- Due to expansiveness of the county and the poor road network, it has been very difficult to access the institutions as may be required and in good time
- Non-availability of ready transport (office, public and private)
- Lack of adequate facilitation (subsistence allowances) of the officers
- Lack of adequate office space and equipment
- Inadequate personnel to man all the sub-county offices and youth polytechnics

SOLUTIONS

- Purchase of vehicle to ease transport difficulties
- Erection of more office space
- Employment of more officers
- Procure more lap tops and other working tools for officers
- Provision of internet services

The Department is hopeful that with intense public participation and proper consultation with relevant stakeholders, it will achieve its objective of effectively and efficiently delivering service to its clients.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To provide leadership and policy direction for effective service delivery.
P2: Pre – Primary Education	To enhance access, quality, equity and relevance of education at ECD centres in the County.
P3: Youth Development	To provide access to quality and relevant training to young people in the County.
P4: Vocational Education and Training	To develop and promote access and equity; quality and relevance to vocational education and training for skills development.
P5: Sports	To improve sports performance in the County.

Part E: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (KShs.)

Programme	Estimates	Projected Estimates	
	2017/18	2018/19	2019/20
Programme 1: General Administration, Planning and Support Services			
SP1.1: General Administration, Planning and Support Services	149,765,709	157,253,994	165,116,694
Total Expenditure of Programme 1	149,765,709	157,253,994	165,116,694

Directorate of Youth Affairs	Youth sensitized on health issues	No. of youths sensitized	200	1000	1100	1200
	Youth sensitized on crimes, drugs and substance abuse	No. of youths sensitized	200	1000	1100	1200
SP3. 3: Youth and Environment						
Directorate of Youth Affairs	Youth sensitized on environment issues.	No. of youths sensitized	200	1000	1100	1200
		No. of trees planted	1000	1500	2000	2500
		No. of environmental youth groups formed.	0	20	20	20
		No. of environmental youth groups supported	0	20	20	20
SP3. 4: Youth Development Fund						

Directorate of Youth Affairs	Establishment of County Youth Development Fund (YDF)	Amount allocated towards YDF	0	10M	20M	30M
		No. of youth sensitized on YDF loan products.	0	400	500	550
	Database for youth entrepreneurs developed	Database developed		Database developed	Database developed	Database developed
	Business support to young entrepreneurs	No. of youth groups funded	0	20	25	30
		No. of youth facilitated to market their products.	0	400	500	550
		No. of youth trained on entrepreneurship	0	400	500	550
Name of Programme: Vocational Education and Training						
Outcome: Increased access and quality of youth polytechnics.						
SP4.1: Technical Trainers and Instructor Services						
Umuro Youth Polytechnic	Enrolled students	Increase in number of students enrolled	0	5%	10%	15%
Obbu Youth Polytechnic	Enrolled students	Increase in number of students enrolled	0	5%	10%	15%
Merille Youth Polytechnic	Enrolled students	Increase in number of students enrolled	0	5%	10%	15%
SP4.2: Curriculum Implementation						

	Assessment and inspection of youth polytechnics	No. of assessments	0	9	9	9
	Co-curricular activities	No. of activities	0	9	9	9
SP4.3: ICT Integration in Youth Polytechnics						
Polytechnics	ICT integration in YPs	No. of YPs integrating ICT and using technology.	0	5	5	5
SP4.4: Infrastructure Development and Expansion						
Headquarters	Accessible and quality technical education	No. of new polytechnics established.	0	2	2	2
		No. of polytechnics provided with training equipments.	0	5	5	5
Name of Programme: Sports						
Outcome: Improved sports performance.						
SP5.1: Sports Training and Competitions						
Directorate of Sports	Sports talent identified	No. of youths skilled in sports identified and developed	0	100	100	100
	Sports personnel trained	No. of Sports personnel trained	0	20	30	50
	County teams participating in National/inter county sports competitions.	No. of teams participating	0	3	5	7
	County sports competitions conducted	No. of teams participations	0	15	20	25

		No. of competitions/tournaments held	0	5	7	10
	Medal winners awarded	No. of Medal winners awarded	0	20	30	35
	Sports organization registered	No. of organizations registered	0	30	40	45
SP5.2: Development and Management of Sports Facilities						
Directorate of Sports	New sports stadia developed	No. of new sports stadia developed	0	5	5	5
	Sports stadia renovated	No. of sports stadia renovated	0	2	2	2
	Sports equipment purchased	No. of sports equipment purchased	100	150	200	250

COUNTY HEALTH SERVICES

Part A. Vision

High quality, responsive Health Care System

Part B. Mission

To build, promote and participate in provision of integrated, accessible, acceptable, affordable, efficient and high quality Health Care services to Marsabit County population.

Part C. Goal

To achieve the highest possible standard of Health that is responsive to the needs of the Marsabit County population.

Part D. Performance Overview and Background for Program(s) Funding

The county health Program based budget (PBB) is part of the ongoing reform processes meant to deepen implementation of devolution as stipulated in the County Government Act, 2012. The development of this Budget has been guided by key health sector policy documents namely: Constitution of Kenya, 2010 and other devolution related legislative frameworks (County Government Act, Public Finance Management Act, 2012, Intergovernmental Relations Act, 2012), Kenya Health Policy, 2013-2030, Kenya Health Sector Strategic Plan 2013-2017, Vision2030, Medium Term Plan (MTPII) 2013-2017 and Marsabit County Integrated Development Plan. Community participation was considered in coming up with this budget. The County Health Sector Strategic and Investment Plan 2013/14 – 2017/18 provides a common framework meant to guide health sector investment and development for the next five years.

The process

Based on the planning and budgeting guiding principles outlined in County Government Act, 2012, the Public Finance Management Act, 2012, and the guidelines from the Ministry of Health, national government, the County Department of Health established technical working group that steered the development of the budget. The methodology used during this process entailed application of strengths, weaknesses and opportunity (SWOT) analyses. The output of the SWOT informed the priorities and strategies in this plan.

Strategic objectives

In this budget the six strategic objectives have been defined to reflect the type of health outcomes that is envisaged after investment and deployment of various health inputs. They are:

- To eliminate communicable conditions.
- To halt and reverse the rising burden of non-communicable conditions
- To reduce the burden of violence and injuries
- To minimize exposure to health risk factors
- Provide essential curative health services
- To strengthen collaboration with health related sectors

Priority Investment areas

To be able to achieve the strategic objectives the Department will focus on priority investment areas:

- *Human resources for health.* The county will develop policies and systems to support attraction and retention of health workforce
- *Essential Health products and technologies.* The multiple approaches to procurement, distribution and storage of EHPTs significantly reduce the values in the economies of scale. The county will ensure coordinated EHPTs logistical management.
- *Health service provisions.* During the budget period the Department will ensure access to quality health services due to coordinated approach to investments
- *Health information management systems.* The current inadequate and poor quality information is a hindrance to prompt and informed decision.
- *Leadership and governance.* A coordinated approach to health care delivery by all stakeholders is critical for maximum delivery of health services. Structures and mechanisms for joint planning, implementation and review will be prioritized and capacity gaps addressed.
- *Partnerships.* Structured partnership amongst health sector players is prerequisite for effective health delivery. During the budget period the potential of private sector to delivery public health services will

be explored under various modes of public private partnerships. In addition, the Department will put efforts to strengthen intergovernmental consultative mechanisms to enhance synergy.

The total budget amount is Ksh 1,150,030,792 of which 652,195,448 will go towards payment of salaries and allowances to members of staff (With a projection of 12.4% increase in number of staff to cover the current staff shortage) 296,885,344 will go towards development and 200,950,000 will go towards recurrent expenditure. It is our sincere belief that there is need to increase the amount spent on development and the department will put all efforts to increase the amount spent on development in consequent years.

Part E: Program Objectives/Overall Outcome

Program	Objective
P1 : General Administration, Planning and Support Services	To improve service delivery and provide supportive function to sections/sub-departments of health.
P2: Preventive & Promotive Health Services	To reduce incidence of Preventable Diseases and ill Health.
P3: Curative and rehabilitative Health Services	To improve health status of the individual, family and community level by ensuring affordable health care services.
P4: Maternal and Child Health	Reduced maternal and child mortality rates.

Part F: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (KShs.)

Programme	Estimates	Projected Estimates	
	2017/18	2018/19	2019/20
Programme 1: General Administration, Planning and Support Services			
SP1.1: Health Planning and Financing	860,895,551	903,940,329	949,137,345

	Evidence based policies and decision making	Number of scientific publications published	0	1	2	5	
		Number policies formulated and enacted	0	1	2	3	
		Number of policy guidelines adopted and launched	0	1	2	3	

Administration, Coordination and ICT

Part A. Vision

To be a leading co-coordinating department for public administration, citizen participation and ICT for effective service delivery and implementation of devolution

Part B. Mission

To provide effective and efficient leadership in public administration, citizen participation and ICT through co-ordination of County Government departments and other stakeholders in delivery of services

Part C. Performance Overview and Background for Programme(s) Funding

Ministerial Performance Review including major achievements for the period; expenditure trends;

The Department of Public Administration, ICT and Disaster Management has three subsectors namely Public Administration, ICT and disaster Management. The main role of this Department is general public administration & coordination of the devolved functions and provision of ICT services. This Department is vital in ensuring the success of the devolution process.

Since its inception, the Department has made the following milestones: -

- 1) Offices for the Sub County and Ward Administrators in all administration units have been constructed and operationalized. In addition, in many of these units, fencing and other utilities have been put in place to ensure security and ease of use in each office compound.
- 2) Various capacity building trainings and programs in the critical areas of Administration and ICT have been conducted. Some staff have also benefited from similar capacity building programs offered by partner institutions and the National Government.
- 3) Public Participation exercises have been successfully conducted at the various levels of decentralized units during the preparation of the FY 2014/2015, FY 2015/2016, FY2016/2017 and FY 2017/2018 budget making cycles. Administrators were key persons in spearheading this exercise at the various levels of the devolved units.
- 4) ICT technical support services for the devolved departments at the Headquarters are offered on a daily basis and ICT services are mainstreamed in all the devolved departments. The installation and use of the Integrated Financial Management System (IFMIS) at the Finance and Economic

Planning Department and the IPPD system at the Human Resource Unit are all major ICT programs that have been fully rolled out and are fully functional.

- 5) Interlinking of all the County and Sub-County offices through Local Area Network (LANs) and Wide Area Network (WAN) with fibre is now complete. This is a major ICT flagship project that involves subscription to broad band internet connectivity through National Optical Fibre Backbone Infrastructure (NOBI).
- 6) All County staff based at Marsabit headquarters and all Sub County offices (with the exception of North Horr Sub County) now have access to internet services provided by Safaricom and paid for by the County Government of Marsabit. This has greatly improved communication and intra transmission of documents and information.
- 7) Strong proposals have been made to improve the current county website to make it more interactive and informative and work on the website is on-going.
- 8) The ICT, Civic Education and Public Participation Policies have been developed and subsequently presented to the Cabinet for discussion and approval. Through the Legal Unit of the County Government of Marsabit, further fine-tuning will be sought to improve these documents as need arises.
- 9) The Marsabit ICT Roadmap, supported by the World Bank through ICT Authority was completed and launched. The Roadmap provides a plan to digitize a wide range of functions within the County Government making service delivery more efficient.
- 10) Key bills namely, the County Government of Marsabit Draft Public Participation Bill, Marsabit County Village Unit Bill, and Symbols and Emblem Bill have either been passed or are awaiting approval by the County Assembly. It is worth mentioning that during the preparation and presentation of these draft bills, **Concern World Wide**, an International NGO operating in the County has provided much needed technical support.
- 11) Successful conflict resolutions at conflict flashpoints amongst several communities in Marsabit County have been reached.
- 12) Mapping of Non-State Actors within Marsabit County, with a view of exploring how best non state actors can interface with the county government has been conducted.
- 13) Engagement of youth through sports to promote peace and cohesion.
- 14) Strengthening of the Marsabit Interfaith Council to help enhance peace building activities.

Constraints And Challenges In Budget Implementation And How They Are Being Addressed;

Constraints and challenges	Mitigation measures
a) Mistrust and suspicion between two levels of government limiting synergies and cooperation in service delivery.	<ul style="list-style-type: none"> • Dialogue between officers at both levels of government at the ward, Sub County and county levels. • Sharing of resources between both levels of government e.g. vehicular transport.
b) Inadequate funds to perform functions of the department.	<ul style="list-style-type: none"> • Development of a Strategic Plan which is complete but has not yet been launched. This will enable more efficient planning going into the future.
c) Poor road network has continued to hinder effective communication and movement of officers especially when it rains	<ul style="list-style-type: none"> • Department of Roads and Public Works is improving state of roads in the county through murraming and spot improvement works.
d) Negative ethnicity and conflicts among communities has dampened growth and development in the county.	<ul style="list-style-type: none"> • Civic Education programmes • Exchange visits between communities • Increase the number of Peace and Conflict Resolution programmes funded by the county government • Strengthening the Office of Cohesion And Integration. • Coordinate peace and conflict resolution activities of non-state actors.
e) Some areas are not covered by the mobile telecommunications network. This hampers service delivery and communication.	<ul style="list-style-type: none"> • Not currently being addressed but the department can lobby service providers to consider putting up infrastructure to support mobile telecommunication.
f) Low literacy levels in the county that hinders access to information and ability to participate in governance.	<ul style="list-style-type: none"> • Not currently being addressed but the Dept could liaise with the Dept of Adult Education in the Ministry of Education to expand its coverage.

Constraints and challenges	Mitigation measures
	<ul style="list-style-type: none"> • Civic education by Office of Public Participation.
g) Lack of a policy framework to guide peace, cohesion and disaster management activities	<ul style="list-style-type: none"> • Development of a policy framework for cohesion and disaster management
h) Weakening of traditional leadership and conflict resolution structures	<ul style="list-style-type: none"> • Broaden traditional leadership structure [include women and youth] making it more participatory and inclusive. This would allow more consultation and hence decisions are binding.

Major Services/Outputs to be provided in MTEF period 2017/18 – 2019/20 (the context within which the budget is required)

- a) Recruitment of Departmental staff including village administrators, cohesion field monitors, support staff and with the help of the communities establish village councils
- b) Undertake cohesion, integration, peace building and conflict resolution activities among the citizens of different parts of Marsabit County.
- c) Undertake disaster management and emergency response activities
- d) Furnishing of subcounty, ward and village administrator’s offices.
- e) Undertake capacity building for staff to enable them effectively perform their duties.
- f) Enhance and strengthen civic education and public participation at all levels of the county government.
- g) Provide ICT support services to all departments of the county government in order to optimize their outputs.
- h) Conduct feasibility studies and research in different thematic areas of ICT as laid out in the Marsabit County ICT Roadmap Server and website administration.

Part D: Programme Objectives/Overall Outcome

Program	Strategic Objectives
1. General administration, planning and support Services	<ul style="list-style-type: none"> • To ensure effective and efficient delivery of County Government services.
2. Coordination Services	<ul style="list-style-type: none"> • To improve synergies between County Government

Program	Strategic Objectives
	Departments.
3. ICT Infrastructure Development	<ul style="list-style-type: none"> • To provide efficient and reliable ICT infrastructure and services.
4. Public Participation and civic education	<ul style="list-style-type: none"> • To ensure informed citizen participation in County government affairs.
5. Cohesion, Integration, Non State Actors Coordination and Disaster Management	<ul style="list-style-type: none"> • To promote peace, cohesion and integration • To coordinate response to emergencies and other disaster risks effectively

Part E: Summary of Expenditure by Programmes, 2017/18 – 2018/19 (KShs. Millions)

Programme	Suppl. Est. 2016/17	Estimates 2017/18	Projected Estimates	
			2018/19	2019/20
Programme 1: General Administration, Planning and Support.				
Outcome: Effective delivery of county government services				
SP 1.1 Administration services		277,294,230	291,158,942	305,716,889
Total Expenditure of Programme 1		277,294,230	291,158,942	305,716,889
Programme 2: Coordination of functions of devolved units				
Outcome: Increased synergy between county govt. departments, non-state actors and nation govt.				
SP 2.1 Co-ordination of County Government Departments		64,400,000	67,620,000	71,001,000
SP 2.2: Coordination of Non State Actors		5,000,000	5,250,000	5,512,500
Total Expenditure of Programme 2		69,400,000	72,870,000	76,513,500
Programme 3: ICT Infrastructure Development				
Outcomes: increased efficiency due to up take of ICT services and infrastructure				
SP 3.1 Acquisition & Installation of ICT Infrastructure		10,000,000	10,500,000	11,025,000

Energy, Lands Mining, Housing and Urban Development

Part A. Vision

To be the leading public organization committed to facilitating optimum utilization of the administration and management of land resource within the county.

Part B. Mission

Provide efficient and effective leadership in land management and administration for sustainable socio-economic of the county.

Part C. Performance Overview and Background for Programme(s) Funding

The department is composed of four sub-sections which include: Energy, Land, and Urban Development. All the four sub-sections are in place and fully operational. In the year 2016/2017, the department was allocated Kshs 116 million for recurrent and Kshs 262 million for development. During this period the department made key strides in the achievements that include completion of deed survey of 4 upcoming towns, registration of parcels of land in the wider Sagante, Hula-Hula, Karare and acquisition of title deeds for Songa and Jirime adjudication areas. . In addition cadastral survey for Manyatta Ote has been undertaken, while acquisition of allotment letters for Nyayo road estate is under way.. The department also has completed major street lighting projects in several centres in the county and has also began installation of lighting along parts the A2 highway that leads into Marsabit and Moyale towns.. The collections of solid waste of seven upcoming towns have been privatized and are being done by different companies. The town beautification projects which begun in 2014- 2015 financial year through development of billboards, wall-clocks and construction of modern toilets in Marsabit and Moyale towns is at completion stage, while a modern bus park has been planned following the completion of the A2 highway.

The department faced a variety of challenges which included Gazettement of Marsabit as land registry which falls within the mandate of National Land Commission (NLC) and By extension Ministry of Land, Housing & Urban Development. Delayed implementation due to slow disbursement of funds by the National treasury, lengthy & slow pace of procurement process hampers timely implementation of planned programs. The department is also faced with extreme shortage of technical staff, especially

Physical Planners, Surveyors, Draughtsman or Cartographers and Inadequate funds to promote development of Renewable energy which compromises the efficiency of service provision.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To improve service delivery and provide supportive functions.
P2: Urban Development Services	Ensure sustainable urban development.
P3: Lands and Physical Planning services	Improved controls on land use and development as well as effectively designed land use pattern.
P4: Energy Services	Increased access to renewable and sustainable energy.
P5: Low Cost Housing Development	To provide low cost housing.

Part E: Summary of Expenditure by Programmes, 2017/18 - 2019/20(KShs.)

Programme	Estimates	Projected Estimates	
	2017/18	2018/19	2019/20
Programme 1: General Administration, Planning and Support Services			
SP1.1: General Administration, Planning and Support Services	134,091,798	140,796,388	147,836,207

Roads, Public Works & Transport

Part A. Vision

A leading Department committed to provision of prompt, effective and efficient technical services in all public works and construct adequate quality safe County road network.

Part B. Mission

To provide technical support for all public works, construct and manage County roads that enhance safe socio-economic growth and prosperity.

Part C. Performance Overview and Background for Programme(s) Funding

The Department of Roads, Public works and Transport is mandated to provide technical support for all public works, manage, develop, rehabilitate and maintain County roads to enhance socio-economic growth and prosperity.

The Department of Roads, Transport and Public Works consist of three main sectors:-

- **Roads** sector is mandated to design, construct new roads ,maintain both rural and urban roads network and protect county roads reserves
- **Transport** sector is mandated to conducting suitability test for drivers, inspection of motor vehicles and hire of mechanical plants and equipment
- **Public Works** is mandated with the designing, documentation and supervision of all Government construction works including keeping and maintaining their inventories.

In the year 2016/2017, the Department was allocated a total of Kshs. 374,842,578 comprising of Kshs 69,367,500 for recurrent and Kshs 305,475,078 for development. Since implementation of the County governments in the year 2013 this Department has targeted about 5,000 kilometres of various roads for improvement ranging from grading, gravelling, and new openings. During 2013/2014 2014/2015 and 2015/2016 financial years the department graded 2,500 kilometres and gravelled 300 kilometres making them all weather roads. It also opened up 200 kilometres of roads within the County.

The improved road network in the county has led to many advantages which include; enhancing the communities' ability to travel across the county, improved the economic status of community, eased the movement of students especially those who are in secondary schools, reduced car breakdowns which were caused by poor roads and it has also reduced distance of transportation through opening up of new roads.

In Moyale, roads that link the town to areas like Arosa, Bori and Heilu-Mansile have been given a face lift giving the regions quick access to town and provided an alternative exit to the Moyale-Marsabit road. The roads have further opened up these areas for development and it has enhanced security since law enforcers patrol these areas frequently.

The Dukana-North Horr road has also been graded to a better status and it will revive the town for more business investments since it links the town to major destinations like Illeret, North Horr and is also

close to the Kenya-Ethiopia border. The road is also going to increase supply of goods and services to Dukana area which has perennially lacked behind in development due to inaccessibility.

The department of roads has also rehabilitated and expanded sections of the road that lead to Mt Kulal to facilitate two way traffic. Previously Mt Kulal was among the least visited places due to poor state of the road where a section of it had fallen off. Hula Hula-Kargi-Falam road has also been renovated and its strategic position serves as a short cut to Loiyangalani from Marsabit town. This road also joins the Isiolo-Marsabit road at Hula -Hula junction providing an important link for goods and services from interior regions to the highway.

The design, advert and award for the upgrading of 4.018 kilometres of roads within Marsabit Central Business District [CBD] to bitumen standard has been concluded and tarmac work will commence any time. Design works and other accompanying documentations for the upgrading of 2.5 kilometres of roads within Moyale town to bitumen standard is complete for advertisement.

On Monitoring, Evaluation and Reporting- the department is doing its best to closely follow-up with all development projects including the flagship projects to ensure quality and compliance with specifications by the service providers. However, the Department is faced with the challenge of transport for the technical team to effectively execute monitoring and evaluation of development projects.

On administration, support and planning, the Department has already recruited seven additional technical staff to provide technical support to County Government line Departments to provide efficient services. The additional staff is in the category of Road Engineer, Road overseers, Building and Electrical engineers.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To support and increase efficiency in service delivery.
P2: Road Transport Infrastructure Development	To develop, maintain and rehabilitate roads network, transport facilities and government buildings to enhance security, mobility, efficiency and safety through firefighting and fire prevention.
P3: Public Works Services	To develop and maintain cost effective public civil works.

Part E: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (Kshs.)

Water, Environment and Natural Resources

Part A. Vision

Safe water and sustainable development for all

Part B. Mission

Effectively manage the County's Natural Resources to ensure equitable and sustainable Socio-economic development and universal access to water

Part C. Performance Overview and Background for Programme(s) Funding

The department of Water, Environment and Natural Resources aims to ensure that access to clean, adequate and affordable water is a basic human right. It also maintains a clean and secure environment by focusing on the conservation of natural resources in Marsabit County. This department is mandated to ensure that the natural resources are protected, managed, exploited and conserved to enable a controlled socio economic development. It also provides a legal frame work in the County which is critical in delivering the right of access to sufficient and safe water, environmental sustainability, supporting livelihoods, transforming the economy, eradicating poverty and wealth creation.

Through this department there has been a significant increase in the accessibility and availability of water in the County where before Devolution only 85 boreholes existed with 24 of them being non-functional causing rural residents to trek for over 10km to access water. In the urban centres, 40-60km pipeline existed with about 1800 connections only.

However from 2013 to 2016 financial years a record number of 44 new boreholes have been drilled with 24 of the previous non-functional boreholes rehabilitated and 15 new water pans constructed. Among the 24 rehabilitated boreholes are Soriadi, Guthas, Bubisa 3, Arge and Ambalo. Moreover six medium level dams have been constructed and 30 existing water pans desilted and expanded to increase their water holding capacity. The dams were constructed depending on the water situation in targeted areas and are evenly distributed.

Furthermore, over 15 underground tanks have been constructed by the department and 1000 plastic tanks purchased and distributed to households for rain water harvesting. In addition to that, 60km of new pipeline

has been extended to new zones and connections increased from 1800 to 3000 in urban centers of the County. From these projects residents have reduced the walking distance in search of water by half in rural areas and urban population has benefited from the extra connections.

Drilling of more boreholes has also helped reduce conflicts between communities which used to arise due to sharing of water points. An example is the drilled Hawaye borehole which has helped the neighboring counties of Isiolo and Wajir.

In Moyale, Kinisa borehole has activated agricultural activities in the area by providing water for irrigating small gardens thus improving food security. Similarly the distribution of plastic water tanks and underground tanks has increased household access to clean and safe water. As a result of the improved availability and access to clean water, hygiene standards have improved reducing incidences of disease outbreaks. It has also helped reduce drought immigrants who increase pressure on the social infrastructure of urban centers leading to increased poverty and social unrest.

In an aim to ensure a sustainable utilization of the facilities developed, the department is engaging the communities in order to establish a water management committee to increase their capacity on ways of proper utilization and management of water resources. This will provide an improved awareness on how to use the facilities provided and avoid conflict between livestock and people.

The department is also working hard to reduce borehole breakdown response time to ensure that they are repaired within 24 hours to avoid panic and suffering among the residents. Currently over 60% responses time has been achieved on boreholes that have experienced minor technical breakdowns. In addition to that the department is planning to introduce solar powered boreholes in a bid to reduce fuel costs and to conserve the environment. The steel water tanks are elevated to provide adequate pressure for water to run for long distances and reach people in far areas with ease.

Although some other parts of the County still require water for domestic and livestock use, the increased water supply in Marsabit County is based on clear understanding of the existing problems, achievable beneficial impacts and factors that determine sustainability.

The department has also focus on environmental sustainability by creating community conservancies, increase tree covers through trees planting program, environmental awareness among others activities.

Despite of the above achievements, the department faced the following challenges: Poor extension services due to inadequate resources allocation, No enough vehicles to do monitoring, water tankers/boozers which are vital during drought spells are equally inadequate and the few on hand are old and uneconomical to maintain; there is frequent breakdown of boreholes and limited budgetary allocation.

During the FY 2017/2018, the department intends to construct more water structure and environmental programs. These projects are guided by the public participation exercise that was done during the budget making process. This is intended to alleviate water shortages and mitigate drought emergencies frequently faced by the pastoral communities.

1.1 Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1 : General Administration, Planning and Support Services	To improve service delivery and provide supportive functions.
P2: Water Resources Management	To increase access and availability of adequate water resources.
P3: Environment Management and Protection	To protect, conserve and sustainably manage environment.
P4: Natural Resources Conservation and Management.	To sustainably manage and conserve forest and wildlife resources.

Part E: Summary of Expenditure by Programmes, 2017/18 – 2019/20 (KShs.)

Tourism, Trade, Industry and Enterprise Development

Part A: Vision

To be the leader in promoting business innovation and value addition for wealth creation in the country

Part B: Mission

To create a vibrant and conducive environment for enterprise development and social-economic growth for the people of Marsabit

Part C: Performance Overview and Background for Programme(S) Funding

The department has various roles and mandates including

- ✓ to promote both local and international Tourism and make Marsabit a destination of choice,
- ✓ to formulate legislative and regulatory framework to facilitate quality service delivery, Market infrastructure development
- ✓ to promote Human resource development – Training & Incentives
- ✓ to nurture Entrepreneurship development – Youth, Women, partnership, Business competition
- ✓ to mobilization resources from the following key institutions; Youth enterprise Fund, Women enterprise Fund, UWEZO fund, Banks etc
- ✓ to establish County Stimulus Fund
- ✓ to register Livestock Market Unions
- ✓ to establish Global and National linkages
- ✓ to enhance Industrialization – Abattoir, Minerals, Education, Tannery
- ✓ to encourage Public Private Partnership –Inter County Trade, International trade and Capacity building

One other key objective is to ensure that services are provided in an efficient and effective manner to all the departments and residents of the county and to ensure that resources are well allocated and utilized.

The department operates on three strategic goals, to develop and promote sustainable Trade, Industry & Tourism for economic empowerment, to develop, promote commerce and enterprise development for prosperous and to enhanced social economic progress, hence improved livelihoods.

During the financial year 2015/16, the department was allocated a recurrent budget estimate of KShs. 55,238,535.

The department was further allocated KShs. 175,700,000 Development expenditure. This amount included KShs. 10,000,000 being for the county enterprise fund, meant to promote SME's through increased access to finance.

The department faced a number of challenges in discharging its mandate.

- Poor infrastructure; the county has very poor roads that hinder the access of the areas rich wildlife. This has made the industry hard to develop.
- Inadequate funding. The budget allocated could not adequately cater for the needs of the department.
- Lack of proper data for businesses and tourism activities within the county.
- Logistics, the department has only one vehicle for the three sub sectors and with the vastness of the County, it has been a struggle getting around reaching various locations.

During the financial year 2017/18, the department intends to remedy the above challenges by putting in place various measures as well as capacity building through training for all its staff in various areas for better service delivery to the residents of Marsabit County.

Part D: Programme Objectives/Overall Outcome

Programme	Objective
P1: General administration and financial support services	To support the delivery of efficient service in the department
P2: Trade and Industrial development	To improve trade and stimulate industrial development
P3: Enterprise development	To promote and provide support to SMEs and jua kalis
P4: Co-operative development & Management	To promote co-operative development
P5: Tourism services	To place Marsabit on the National and global maps and make Marsabit a tourism destination of choice.

Part E: Summary of the Expenditure by programmes 2016/2017 - 2018/2019 (Ksh. Millions)

SP2.3 Tourism Infrastructure Development	Master plans for the four sub-counties Development of proposals to stakeholders for partnership Construction of Tourism facilities	No. of master plans developed No. of facilities constructed	1 2	1	1

Culture and Social Services

Part A. Vision

A cohesive, Integrative and socially responsive sector that taps on its Tourism potential for socio-economic development

Part B. Mission

To formulate, mainstream and implement responsive strategies for sustainable socio-cultural and Tourism for socio-economic development

Part C. Performance Overview and Background for Programme(s) Funding

The department has various roles and mandates including

- ✓ to harness the full potential of County's cultural heritage,
- ✓ to promote, preserve and develop all functional aspects of culture for sustainable development,
- ✓ to formulate legislative and regulatory framework to facilitate quality service delivery,
- ✓ Provision of social protection funds to vulnerable people,
- ✓ to promote gender equality through gender mainstreaming as well as
- ✓ Advocacy for Art and Art facts.

One other key objective is to ensure that services are provided in an efficient and effective manner to all the departments and residents of the county and to ensure that resources are well allocated and utilized.

The department operates on two strategic goals, promote and preserve the County's culture and heritage for posterity and to enhance quality social service delivery for improved livelihoods.

During the financial year 2014/2015, the department was allocated a recurrent budget estimate of Kshs. 48,000,000.

The department was further allocated Ksh. 119,000,000 Development expenditure. This amount included Ksh. 10,000,000 being for the social protection program, meant to better lives of the disabled and the elderly.

During the FY 2015/16, the department was allocated Ksh. 238,622,233. This amount includes Ksh. 56,722,233 being recurrent expenditure and Ksh. 181,900,000 being development expenditure. The department was allocated Ksh. 20,000,000 for social protection programme. During the year under review the department was allocated a total of Ksh. 185,794,316. The development amount allocation was Sh. 144,221,833 and recurrent was Ksh. 41,572,483.

The department faced a number of challenges in discharging its mandate.

- Poor infrastructure; the county has very poor roads that hinder the access of the areas rich wildlife. This has made the industry hard to develop.
- Inadequate funding. The budget allocated could not adequately cater for the needs of the department.
- Lack of proper documentations on culture and social activities of the people.
- Logistics, the department has only one vehicle for the three sub sectors and with the vastness of the County, it has been a struggle getting around reaching various locations.

During the financial year 2017/18, the department intends to remedy the above challenges by putting in place various measures as well as capacity building through training for all its staff in various areas for better service delivery to the residents of Marsabit County.

Part D: Programme Objectives/Overall Outcome

PROGRAMMES	OBJECTIVES
P1: General Administration, Planning and Support Services.	To support efficient and effective service delivery in the departmental functions, programs and activities.
P2: Cultural Services	To improve heritage and culture awareness, knowledge, appreciation and conservation.
