TABLE 9—CONVERSION OF EAST AFRICAN RAILWAYS AND HARBOURS ADMINISTRATION SALARIES

1. Detailed conversion tables for the Railways and Harbours Administration have not been prepared by us. Because the system of close grading is preserved in the new salary structure, and because the number of new scales is, in some parts of the Administration, less than the number of existing scales, we think that the detailed application of the new structure to serving staff is best left to the Administration to determine.

2. We have, however, the following suggestions to make:—

(1) *Base conversion point of present Junior Service C Scale.* The present Scale CIV is £72(108)—99(135). The proposed salary of Grade XI (Division III) in Group B is £102(112)—144(158). Allowance having been made for the factor of rent-free quarters, we suggest that in order to ensure substantial parity of treatment as compared with our recommended conversion of territorial clerical scales in Conversion Tables Nos. IA and D, the base of the conversion should be:—£72(108) to £114(125) in the scale £102—144.

(2) *Base conversion point of present Junior Service B Scale.* We suggest that the base of conversion of the minimum of this scale should be £174(235) to £249(274).

(3) The above recommendations also apply to the scales for Running Staff and Artisans.

(4) *Present Junior Service A Scale—Application of the Inducement Principle in respect of conversion.* We agree that, for purposes of conversion and where no regrading of the posts involved is contemplated, the inducement principle should be held to operate in respect of conversion to the proposed new Grade V (Division I) of Group B, i.e. £480(528)—534(587), and thence upwards. We understand in this connection that the present Scale £325(439)—385(520) will be replaced by use of the proposed Cadet/Junior/Probationer grade £378(416)—522(574).

3. Subject to the points made above, we recommend that the Administration should prepare its own conversion tables in accordance with the general rules proposed by us in Chapter XXVIII of Volume I of the Report.

HIGH COMMISSION

High Commission C Scales are identical with those of Kenya above. Some High Commission Services (e.g. the Posts and Telecommunications Administration) pay cost of living allowance at 35 per cent throughout, subject to a minimum of £36 p.a., instead of on the graded Kenya table (see para. 108).

In all High Commission Services (other than the East African Railways and Harbours Administration but including the Posts and Telecommunication Administration) conversion should be in accordance with existing *basic* salary rates, irrespective of differences in cost of living allowance; e.g. £48 in High Commission Scale C4 converts to £90 on Scale E6, irrespective of the fact that the gross emoluments are £84 (i.e. £48 + minimum allowance £36), whereas in the Kenya Scale they are £77; and so on throughout the C Scales.

(2) The limit of present expectation of clerks serving on the BII Scale is deemed to be £375 = £480 (see para. 635 of Report).

(3) For shadow conversions of present scales BI, B Special and £575—700, see Conversion Table No. IF.

HIGH COMMISSION

The High Commission B Scales are identical with those of Kenya above. Conversion should be made on the tables above, without regard to any difference in present rates of cost of living allowance in the range £180—210 in some High Commission Services (see note under Conversion Table No. IA).

The notes 1, 2 and 3 above apply equally to the High Commission B Scales.

(2) In the Kenya and Uganda Scale £550—1,140 (professional range), all points from £550 to £760 should convert to £1,056, incremental dates for progression beyond £1,056 being spaced as required.

(3) In the Tanganyika Scale £610—840 (see para. 392), any point up to £815 should convert to £1,056.

(4) In the Uganda Scale £765—1,000, any point up to £815 should convert to £1,056.

 (E) = Assistant Plant Breeder, etc. (see para. 381).

(2) In Kenya and Uganda, Assistant Veterinary Officers on £276 at conversion should proceed to £300 as if they had entered the scale at £288. In Tanganyika, Assistant Veterinary Officers on £285 at conversion should proceed to £300 as if they were in the senior half of the bracket, Assistant Agricultural Officers as if in the junior half.

Conversion of Assistant District Officers, Kenya, and Administrative Assistants, Tanganyika

See comments in para. 214. Conversion tables for serving officers should be arranged by the two Governments in consultation in the light of the status to be assigned to the grades. Our tentative suggestion is that conversion up to the £300 point in Kenya (£315 in Tanganyika) should be to the E Scale up to £480, and above those points to the C Scale.

Note.—(1) Conversion of Kenya Immigration Officer and higher grades to B Scale will be found in Table IIID (1) and (3).

(2) The Kenya Scale for A.S.P.s was broken by the Police Commission at £972, with a shadow scale on £36 increments beyond that point for A.S.P.s not promoted to Superintendent (see para. 252 of Police Commission's Report). £972 converts to £984 basic, and the shadow scale beyond the latter point will be £1,020 and onward by £36 increments (£1,278 and £42 increments on the inducement scale). The same applies in other administrations if it is decided to break the scale there also (see para. 354 of this Report).

(3) Conversion of female officers to B(W) Scales should follow rules laid down in para. 643 of this Report.

(2) On conversion to the proposed scale the provision of free services lapses (see para. 323).

CONVERSION TABLE No. VI

Conversion to P Scales for Police, Prisons, etc.

No conversion tables to P Scales have been prepared by us. Construction of the tables depends:—

- (a) in Kenya, on whether the conversions recommended by the Police Commission have been accepted and implemented ;
- (b) in the other territories, on whether our recommendations in Chapter XVI in regard to alignment of their scales with those of Kenya are accepted.

When these points have been settled, material for preparation of conversion tables will be found in our Tables Nos. I and II.
